## **Integrated Marketing Group T316SS Wire Mesh**

Integrated Marketing Group T316SS Stainless Steel Knitted Wire Mesh is a **powerful metal insulation covering**, featuring several types of high resistance qualities. This robust wire mesh **retains its strength and its physical characteristics**, even when coming in contact with incredibly high temperatures. Its flexibility allows it to fit easily around even the most irregular curves and complex shapes, and remains **strong enough to resist penetration by sharp objects**; it is also **resistant to both vibration and chemical corrosion**. Use this incredibly well-built and durable wire mesh for industry applications such as the manufacturing of removable insulation covers.
